Personal Statement

Industry expert in Web Development, self-motivated web developer with five years of comprehensive experience managing multiple clients. Gained project based training from ALX academy and only project challenge platforms like Front-end mentor, some of this project are available on my personal portfolio website. Passionate and hardworking to deliver on deadlines. Strong HTML, CSS, JAVASCRIPT, DMBS, and PYTHON programmer. I will be able to create a strategic approach for brand awareness to beat competition thereby generating more leads for products or services.
